The screenshot displays two consecutive pages from the Oracle E-Business Suite interface.

Page 1: Setup: Product Management

This page shows the "Functional Areas" sidebar on the left, which includes categories like Initial Users, Enterprise Profile, Users and Security, Application Extensions, Inventory Organizations, Item Organizations, Items, Catalogs, Structures, Suppliers for Product Management, Item Mass Update, Advanced Catalogs, Supplier Portal, Product Requirements and Ideation Management, and Concept Design Management. The "Catalogs" category is highlighted. The main area is titled "Catalogs" and contains a table of tasks:

Task	Help	Scope	Predecessor Tasks	Notes	Actions
Manage Functional Area Catalogs				0	0
Manage Catalog Descriptive Flexfields				0	0
Manage Category Descriptive Flexfields				0	0

Page 2: Manage Catalogs

This page shows a list of catalogs with details such as Catalog Name, Description, Functional Area, Start Date, End Date, Controlled At, and Default Category. The table includes the following data:

Catalog Name	Description	Functional Area	Start Date	End Date	Controlled At	Default Category
AT2010_CLIC	VAT Package 2010 Services		1/14/14		Master Level	
AT_PROD_CLASS_CLIC	AT Product Classification		1/14/14		Master Level

The screenshot shows the Oracle Fusion Catalog Management interface. On the left, there's a sidebar with various functional areas like Contracts, Cost, and Inventory. The main area displays a list of catalogs, with one named 'API_Inventory_Catalog' selected. A modal dialog titled 'Assign' is open, prompting the user to assign the catalog to a functional area. The dialog has a dropdown menu for 'Functional Area' with options like 'Contracts', 'Cost', etc., and buttons for 'OK' and 'Cancel'. In the background, a table lists catalog details such as 'Catalog Name', 'Description', 'Functional Area', 'Start Date', 'End Date', 'Controlled At', and 'Default Category'.

This screenshot shows the same interface after an attempt to assign the catalog. An 'Error' dialog box is displayed, containing two messages: 'The catalog Purchasing is already assigned to the functional area Purchasing. You can't change the catalog.' and 'The catalog API_Inventory Catalog doesn't have a default category. The functional area Purchasing requires a default category to be specified.' Both messages include reference numbers (EGP-2776080). The background table remains the same, showing catalog details.

→ Category → item.

→ under category items are there

The screenshot shows the Oracle Fusion Item Creation interface. On the left, a navigation tree under 'Categories & Item Creation' shows a hierarchy with 'inv_items' expanded, listing categories like 'Audio Products', 'Batteries and Adapters', 'Cables', etc. One category, 'Digital Cameras', is highlighted with a yellow box and has a mouse cursor hovering over it. To the right, a list of items is displayed, each with a thumbnail image, name, and details. The items listed are:

Image	Name	Start Date	End Date
	DCOG1210N Digital Cameras	Grey Olympus Digital C... 000	Start Date End Date
	DCOG1210N Digital Cameras	Grey Olympus Digital C... 001	Start Date End Date
	DCOG1210N Digital Cameras	Grey Olympus Digital C... 002	Start Date End Date
	DCOG1210N Digital Cameras	Grey Olympus Digital C... 003	Start Date End Date
	DCPB1210N Digital Cameras	Black Panasonic Digtal... 000	Start Date End Date
	DCPB1210N Digital Cameras	Black Panasonic Digtal... 001	Start Date End Date

At the bottom right, there's a note 'Load More Items 1-6 of 8 items'.
