

Movement request issue:-

Earlier we do not have any documents to transfer the items/ receive the items like increasing/decreasing the stock.

So here we are using movement request issue transaction to reduce the stock from our warehouse to general ledger account

1. Movement request issue
2. Print movement request pick slip report
3. Pick confirm
4. Review completed transaction.

The top screenshot shows the Oracle Fusion Inventory Management dashboard. It displays several key metrics:

- Picks: No data available
- Late Cycle Counts Over 30 Days: 0 Items
- Cycle Count Sequences: No data available
- On-Hand Value: \$279M
- Shipments: Shipment Lines (No data available), Inspected Receipt Lines (0 Accepted, 0 Rejected)
- Open Shipments by Priority: Top 5 Priorities by Volume (No data available)
- Open Shipments by Carrier: Top 5 Carriers by Volume (No data available)
- Shipment Lines: No data available
- Receipt Lines: Backordered Supply Lines
- Shipment Lines for Next 30 Days: No data available

The sidebar on the right lists various inventory management tasks, with "Manage Movement Requests" highlighted.

The bottom screenshot shows the "Manage Movement Requests" page. It includes an advanced search section with filters for Movement Request, Created By, Movement Request Type, Transaction Type, Item, Line Status, Source Subinventory, Destination Subinventory, and a search button. Below the search is a "Search Results" table with columns: Movement Request, Line Number, Movement Request Type, Required Date, Transaction Type, Item, Requested Quantity, Delivered Quantity, UOM Name, Line Status, and Created By. A note at the bottom says "No search conducted."

Offerings

The screenshot shows the Oracle Offerings interface. On the left, there's a grid of icons representing different services: Compensation Management, Customer Data Management, Customer Experience for Utilities, Customer Loyalty, Enterprise Contracts, Field Service, Financials (highlighted with a yellow box), Fusion Accounting Hub, Grants Management, HCM Communicate, Help Desk, Manufacturing and Supply Chain Materials Management (highlighted with a yellow box), Marketing, Order Management, PRM Offering, Procurement, and a few other icons partially visible. To the right, a sidebar titled "Financials" provides configuration details for financial flows, including assets, ledgers, cash cycle, invoices, and payments. It also shows the status as "Enabled" and has "New Features" and "Opt In Features" buttons.

fa-euth-dev39-saasfademo1.ds-fa.oraclepdemos.com/fscmUI/faces/FuseTaskListManagerTop?_afLoop=7090673726645562&_adf.ctrl-state=wf7s2sf06_787

Opt In: Manufacturing and Supply Chain Materials Management

This screenshot shows the "Opt In" configuration page for the "Manufacturing and Supply Chain Materials Management" offering. The left pane lists various components like Suppliers, Facilities, Items, Carriers and Transit Times, Catalogs, and Inventory Management (which is highlighted with a yellow box). The right pane is a table with columns: Name, Always Enabled From, Enable, View History, Features, and Setup. The "Inventory Management" row has its "Always Enabled From" checkbox checked and its "Enable" checkbox checked. The "Features" column for this row contains a yellow highlight.

Edit Features: Inventory Management

This screenshot shows the "Edit Features" configuration page for the "Inventory Management" offering. The left pane lists features: Reconcile Inventory Balances with a Third-Party Logistics Provider, Warehouse Management System, or Contract Manufacturer; Enable Units of Measure Usages (which is highlighted with a yellow box); Maintain Detailed Reservations for Make, Buy, and Transfer Supply Orders; Use Approvals for Movement Requests (which is highlighted with a yellow box); Hide Inventory Management Infolets; Disable Warning When Updating Primary or Secondary Quantity of Dual Unit of Measure Items; Manage Subinventories and Locators on Redesigned Pages (with value 25C); and Redwood: Use Redwood Style in Movement Request Approvals Notification (with value 25C). The right pane is a table with columns: Feature, Always Enabled From, Opt In Task, Enable, View History, Selected Choices, and Setup. The "Enable Units of Measure Usages" and "Use Approvals for Movement Requests" rows have their "Enable" checkboxes checked. The "Selected Choices" column for the "Use Approvals for Movement Requests" row contains a yellow highlight.
