

Oracle Fusion SCM Course Content

Enterprise Contents:

1. User Creation
2. Role Assignment
3. Role Customize
4. Define Implementation Project
5. Define Enterprise
6. Legal Entity
 - Manage Legal Address
 - Manage Legal Entity
 - Define LDG
 - Attach LDG to Legal Entity
7. Ledger
 - Manage Currencies
 - Manage Calendar
 - Manage charts of Account
 - Manage Charts of Account Values
 - Manage Charts of Account Structure
 - Manage Charts of Account Instance
 - Deploy Flex-field
 - Manage Charts of Account Value set Values
 - Manage Primary Ledger
 - Assign Legal Entities to Ledger
 - Specify Ledger Options
 - Assign Balancing Segment Values to Legal Entities
 - Review and Submit Accounting Configuration
8. Business Unit
 - Manage Locations
 - Manage Business Unit
 - Assign Business Unit Business Function
9. Hire Employee
 - Manage Users
 - Assign Roles to Employee
 - Manage data access for users
 - Run LDAP Program

Inventory Configurations:

10. Manage Locations
11. Manage Item Organizations
12. Manage Facility Shifts
13. Manage Facility Workday Patterns
14. Manage Facility Schedules
15. Manage Inventory Organizations
16. Manage Sub inventories
17. Product Management Configurations
 - Manage Item Life cycle phases
 - Manage item status
 - Manage Item types
 - Operational Attribute groups
 - Manage item Profile Options
 - Manage Item class
 - Manage UOM
 - Manage Item catalogs
 - Manage delete groups
 - Create Item

Oracle Fusion SCM Course Content

Inventory Topics:

1. Miscellaneous Transactions
 - Miscellaneous Receipt
 - Miscellaneous Issue
 - Account Receipt
 - Account Issue
 - Account Allies Receipts
 - Account Allies Issue
2. Sub Inventory Transfer
3. Movement Request with and without approval
4. Inter Organization Transfer - Direct & Intransit
5. Serial Control
6. Lot Control
7. Revision Control
8. Stock Locators
9. Physical Inventories
10. Cycle Count
11. Min-Max Planning

Inventory Important Forms:

1. Review Completed Transactions
2. Manage Item Quantities
3. Manage Serial numbers
4. Manage Lot

Inventory Configurations:

1. Manage Account Allies
2. Manage Inventory Transaction Reasons
3. Manage Material Status
4. Manage Inventory Transaction sources and types
5. Manage Inter Organization Parameters
6. Stock Locator
 - Manage Inventory Value sets
 - Manage Inventory locator key Flex fields
 - Manage Flex field structure instance
 - Deploy Flex-fields
 - Manage Segment values
7. Upload Data
8. Manage Inventory Profile Options
9. Manage Inventory look-ups
10. Manage Item Transaction Defaults
11. Configure Item Transaction Defaults
12. Manage Lot Expiration Action

Oracle Cloud Procurement

- Supplier Portal (SP)
- Self Service Procurement (SSP)
- Sourcing
- Procurement
- Procurement Contracts
- Supplier Qualification Management (SQM)

Procurement Offering	Purpose	Roles
Supplier Portal (SP)	Maintaining Suppliers	■ Supplier Manager ■ Supplier Administrator ■ Procurement Agent
Self Service Procurement (SSP)	Raising Requisitions	■ Procurement Catalog Administrator ■ Procurement Requester ■ Procurement Preparer ■ Advanced Procurement Requester
Procurement	Raising Purchasing	■ Procurement Manager ■ Buyer
Sourcing	Raising for Bidding	■ Category Manager
Procurement Contracts	Contract PO	
Supplier Qualification Management (SQM)	Conduct Supplier Entry	■ Supplier Qualification ■ Supplier Sales Representative

Supplier Portal (SP)

1. Specify Supplier Numbering Sequence
2. Manage Supplier Type Look-up
3. Tax organization Look-up
4. Manage Supplier Product and Service Category
5. Manage Supplier Descriptive Flexfield
6. Configure Supplier Registration and Profile Change Request
7. Manage Internal Supplier Registration Approvals
8. Manage Supplier Registration Approval
9. Manage Supplier Profile Change Approvals
10. Manage Supplier Spend Authorization Approvals
11. Manage Internal Supplier Profile Change Approval

Additional Setups:

12. Configure New Supplier Notification
13. Manage Supplier Bank Account Descriptive Flex-fields
14. Manage Audit Policies

Access Needed for Creating Supplier

- Employee
- Supplier Manager Role
- Buyer Setup
- Manage Data access for Business Unit (if supplier form not open)

Supplier Process Flow

1. Supplier
2. Supplier Address
3. Supplier Site
4. Supplier Site BU Assignment

Oracle Fusion SCM Course Content

5. Supplier Contacts
6. Supplier Qualifications
7. Supplier Payments

Supplier Portal (SP):

1. Manual Supplier Creation
 - Prospective Supplier
 - Spend Authorized Supplier
2. Internal Supplier / Registration
3. External Supplier
4. FBDI Process
5. Promote Prospective Supplier as Spend Authorization
6. Supplier Approval Process
7. Supplier Change Approval Process

Scenarios:

- Supplier Administrator want to on board supplier
- New Supplier want to be on-boarded
- Supplier approver wants to approve supplier registration
- Supplier Administrator wants to search Supplier with Supplier Number/Name
- Supplier Administrator wants to search Suppliers with Business classifications/Supplier Type
- Supplier Administrator wants to share same supplier across different Business Units
- Supplier Administrator wants to create Parent- Child relationships

Procurement Foundation:

1. Manage Payment Terms
2. Manage Carriers Look-up
 - WSH_MODE_OF_TRANSPORT
 - WSH_SERVICE_LEVELS
3. Manage Carrier
4. Manage FOB Look-up
5. Manage Freight Term Look-up
 - a) Manage Procurement Document Numbering
6. Manage Purchasing Line types
7. Manage Purchasing Profile options

Procurement Configurations:

1. Manage Common Options for Payables and Procurement
2. Configure Requisitioning Business Function
3. Configure Procurement Business Function

Requisition Roles:

Assign Roles to User

Assign Data Access for User

Role	Purpose
Procurement Requester	able to prepare requisitions for themselves ● Manages requisitions including creating ● Searching, and viewing requisitions ● creating non-catalog requests ● Creating requisitions with one-time locations ● Changing deliver-to locations on requisition lines
Procurement Preparer	able to prepare requisitions on behalf of others ● Manages requisitions including creating

Oracle Fusion SCM Course Content

	● Searching, and viewing requisitions ● creating non-catalog requests ● Creating requisitions with one-time locations ● Changing deliver-to locations on requisition lines
Advanced Procurement Requester	able to prepare requisitions on behalf of others and has access to advanced requisition creation permissions. ● Manages requisitions including creating ● Searching, and viewing requisitions ● creating non-catalog requests ● Creating requisitions with one-time locations ● Changing deliver-to locations on requisition lines

TAD (Transaction Account Builder):

- Manage Transaction Account Types
- Manage Account Rules
- Manage Transaction Account Definitions
- Manage Sub-ledger Accounting Options

Approval Management:

- Auto Approval
- Single Approver
- Job Approval
- Supervisor Approval
- Approval Group
- Position Hierarchy

Self Service Procurement:

1. Manage Functional Area Catalogs
 - Catalog
 - Categories
2. Manage Catalog Category Hierarchy (Browsing Category-Child Browsing - Item category)
3. Manage Catalogs
4. Manage Smart Forms
5. Manage Content Zones
6. Manage Self Service Procurement Profile Options

Punch-out Catalog

1. Manage Self Service Procurement Profile Options (Optional)
2. Manage Supplier content Map sets
3. Manage Catalogs - punch out
4. Add Catalog to Content Zone

Purchasing Foundation:

1. Manage Hazard Classes
2. Manage UN Numbers
3. Manage Approved Supplier List Status
4. Manage Buyer Assignment Rule
5. Manage Requisition DFF Flex-fields
6. Manage Requisition Value Sets
7. Manage Purchasing DFF Flex-fields
8. Manage Purchasing Value Sets

Receiving:

Oracle Fusion SCM Course Content

1. Manage Receiving Parameters
2. Manage Receiving Profile Options
3. Manage Receiving DFF Flex-fields
4. Manage Receiving Value Sets

Approval Management:

1. Manage Requisition Approvals
2. Manage Purchasing Document Approvals
3. Manage Supplier Registration Approvals
4. Manage Internal Supplier Registration Approvals
5. Manage Spend Authorization Approvals
6. Manage Supplier profile Change Approvals
7. Manage Supplier Negotiation Approvals
8. Manage Supplier Negotiation Award Approvals

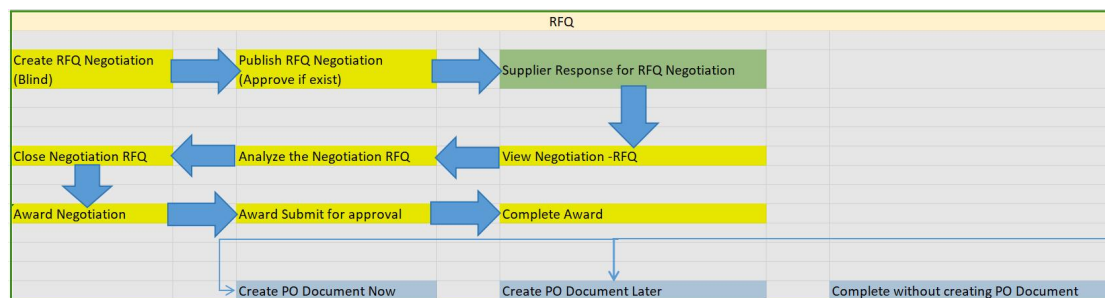

Requisition / Self Service Procurement:

- Create Requisition Using - Requisition Line
- Create Requisition Using - Non-Catalog Requisitions
 - Service billed by Amount
 - Service Billed by Quantity
- Create Requisition Using - Catalog
- Create Requisition Using - Punch-Out
- Create Requisition Using - Smart Forms
- Requisition Approval
- Requisition Status
 - Create Requisition -Single Line
 - Create Requisition - Multiple Lines
 - Cancel Requisition
 - Modify Requisition
 - Delete Requisition
 - Requisition Line cycle
 - Purchasing News
 - Requester wants to Create Non-Catalog Requisition for goods/services where no Agreement exists with Supplier
 - Approvers want to Reassign Requisitions to another Approver
 - Shopping List
 - Create Requisition Using Private Catalog
 - Create Requisition Using Public Catalog
 - Enable Redwood for Requisition Creation
 - Search Requisition Based On
 - BU
 - Requisition Number
 - Requester
- Requisition Creation through Min-Max Planning
 - ◆ Define Item
 - ◆ Sub inventory Level - Assign item and source Type - Supplier
 - ◆ Run Print Min-Max Planning Report
 - ◆ Manage Inventory Profile Options
 - INV_MINMAX_REORDER_APPROVED
 - ◆ Role: Supply Chain Operator Manager
 - ◆ Data Access for user
 - ◆ Run Process Supply Chain Orchestration Interface

Oracle Fusion SCM Course Content

Sourcing:

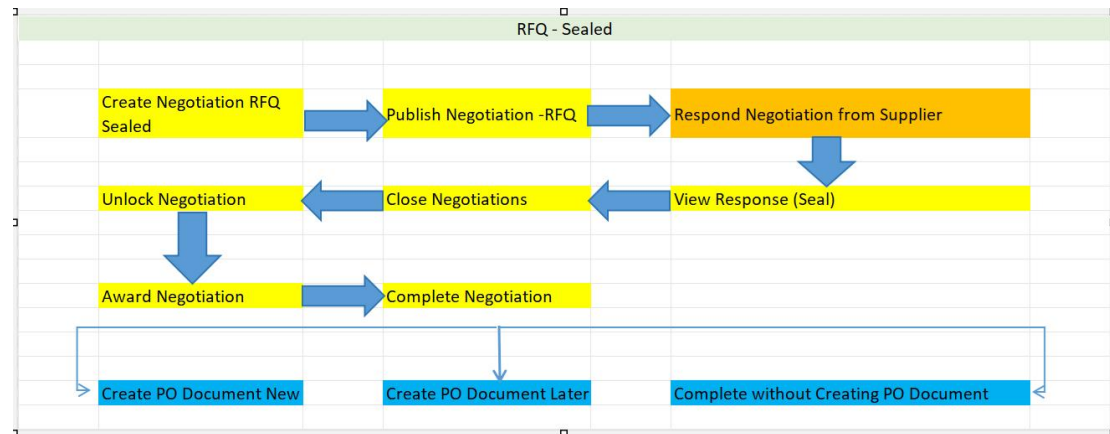

- Oracle Fusion Cloud Sourcing Roles & Data Access
- Manage Negotiation Templates
- Manage Negotiation Style
- **RFI Negotiation**
 - Create Negotiation RFI and Publish
 - Manage Negotiation Approvals
 - Respond Negotiation from Supplier Portal
 - View Responses
 - Monitor Supplier Activities
 - Track Negotiation Activities
 - Lock and Unlock Supplier Activities
 - Invite Additional Suppliers
- **RFQ Negotiation**
 - Create Negotiation - RFQ
 - Publish RFQ
 - Respond Negotiation from Supplier Portal
 - View Responses
 - Close Negotiation
 - Award Negotiation
 - Award submit for approval
 - Complete Award

- Manage Negotiation Award Approvals
- Item Level negotiation Enabled
- Approval process negotiation
- RFQ award for different Response
- Create Surrogate Response
- Sealed Response
 - Create Negotiation - RFQ
 - Publish RFQ
 - Respond Negotiation from Supplier Portal
 - View Responses
 - Close Negotiation
 - Unlock the seal
 - Award Negotiation
 - Award submit for approval
 - Complete Award
- RFQ through Purchase Requisition
- Cost Factor
 - Manage Cost Factor
 - Manage Cost Factor List
- Manage Attribute List

Oracle Fusion SCM Course Content

- Two stage Negotiation
 - Commercial
 - Technical

Practice:

- ✧ RFI process for Open response
- ✧ RFI Process for Blind Response
- ✧ RFQ Process for Blind Response
- ✧ RFQ process for Sealed Response
- ✧ RFQ process and award can be with multiple suppliers for different items
- ✧ RFQ complete process till complete award
- ✧ RFQ create through Purchase Requisition
- ✧ RFQ process through Surrogate Response
- ✧ Apply Cost factor to RFQ Negotiation
- ✧ Two stage Negotiation

Purchasing:

- Create Purchase Order
- Approve Purchase Order
- Cancel Purchase Order
- Duplicate Purchase Order
- Change Purchase Order
- Close Purchase Order / Reopen Purchase Order
- Purchase order from Purchase Requisition
- Purchase Order from Negotiation / RFQ
- Contract Purchase Agreement (PR-PO)
 - Create Purchase Order Manually
 - Create Purchase Order Automatically
- Blanket Purchase Agreement
- BPA Price Breaks
- Blanket Purchase Agreement through RFQ
- Touch-less buying
- Cancel Unfulfilled Demand
- One-Time address while create Requisition
- ASN Creation
- Receiving
 - Direct
 - Standard
 - Inspection

Oracle Fusion SCM Course Content

- Print Receipt Traveller
- P2P Flow
- Invoice Creation
- Corrections
- Returns
- Include closed POs for receipts
- Allow routing override
- Other controls in receiving parameters
 - Substitute receipts
 - Unordered receipts
 - Blind Receiving
- Open periods of GL and AP
- Pay on Receipt /ERS Process
- Debit memo on RTS
- Over Receipt Tolerance
- Complex PO with Work Confirmation
- Consignment Process
- P2P with Controlled items
- Responsive self service procurement
- Receive through SSP
- VMI Process

Payable Setups:

1. Manage Payment terms
2. Configure Common Options for Payables and Procurement
3. Manage Invoice Options
4. Manage Payment Options
5. Create Distribution Sets
6. Suppliers
7. Bank, Branch, Account
8. Roles
 - Account Payable Manager
 - Account Payable Supervisor
 - Account Payable Specialist
9. Assign data access to user
10. Open AP Periods
11. Manage Payment Process Profile
12. Manage Payment Method
13. Manage Payment Codes
14. Manage Payment Systems
15. General Accounting Roles (Open Periods)
 - General Accountant
 - General Accounting Manager
16. Manage Formats

Practice:

1. Create Purchase Order
2. Cancel Purchase order
3. Close Purchase Order
4. Freeze Purchase Order
5. Create purchase order from RFQ
6. Create Purchase Order from PR
7. Create Blanket Purchase Agreement
8. Create Blanket Purchase Agreement from RFQ

Oracle Fusion SCM Course Content

9. Create BPA Price Breaks
10. Create Contract Purchase Agreement
11. Touch-less Buying
12. Consignment Process
13. Direct Delivery
14. Standard Receipt
15. Inspection Required
16. Over receipt Tolerance
17. Blind Receiving
18. Allow substitute item process
19. Return to Supplier
20. ERS Process
21. Debit Memo for RTS
22. P2P Cycle
23. Complex PO with Work Confirmation
24. Add to Receipt
25. Receive for closed lines
26. Unordered receipt
27. Corrections

Supplier Qualification Management:

1. Create Questions
2. Active Questions
3. Create Qualification Areas
4. Create Qualification Model
5. Create Initiative
6. Validate Initiative
7. Launch Initiative
8. Login Supplier Portal Respond to Questionnaires
9. Review supplier response and accept
10. open Supplier and review questionnaires and submit
11. Evaluate Qualification
12. Finalize Qualification
13. Validate the Supplier Qualification (Outcome has been posted)

Oracle Fusion SCM Course Content

Order Management:

Roles:

Order Management:

Order Administrator

Order Manager

Order Entry Specialist

Order Orchestration Error Recovery Manager

Pricing:

Pricing Analyst

Pricing Administrator

Pricing Manager

Gop:

Order Promising Manager

Supply Chain Planning Application Administrator

Supply Chain Controller

1. Manage Order Lookups

Lookups: ORA_DOO_ORDER_TYPES

ORA_DOO_LINE_TYPES

ORA_DOO_RETURN_LINE_TYPES

2. Manage Orchestration Process Definitions

DOO_OrderFulfillmentGenericProcess

DOO_BillOnlyGenericProcess

3. Manage Process Assignment Rules for sales order

4. Manage Trading Community Source Systems

5. Manage Order Management Parameters

Picking & Shipping Setups:

6. Manage Release Sequence Rules

7. Manage Pick Slip Grouping Rules

8. Manage Picking Rules

9. Manage Picking Rule Assignment

10. Manage Ship Confirm Rule

11. Manage Shipping Parameters

12. Manage Pick Wave Release Rule

13. Manage Shipping Lookup

Lookup: WSH_SHIPPING_PRIORITY

14. Manage Shipping Lookup

Lookup: WSH_FREIGHT_CHARGE_TERMS, WSH_FREIGHT_COST_TYPE

15. Manage Shipping Cost Types

16. Manage Carrier Lookups (Not Required)

Lookup: RCS_INCO_TERMS

17. Manage Carriers Lookups

Lookup: WSH_SERVICE_LEVELS

Lookup: WSH_MODE_OF_TRANSPORT

18. Manage Carriers

19. Manage Supply Chain Financial Orchestration System Options

20. Manage Customer Account Lookups (Lookup: CUSTOMER CLASS)

21. Manage Customers

Pricing Setups:

22. Manage Standard Lookup

Lookup: ORA_QO_CUST_PRICING_SEGMENT

23. Manage Customer Pricing Profiles

24. Manage Pricing Segments

Oracle Fusion SCM Course Content

- 25. Manage Price Lists
- 26. Manage Pricing Strategies
- 27. Manage Pricing Strategy Assignments
- 28. Manage Document Sequence Categories
- 29. Manage Shipping Document Sequences
- GOP Setups:
- 30. Manage Planning Source Systems
- 31. Manage ATP Rules
- 32. Manage Sourcing Rule (Buy / Transfer From)
- 33. Manage Assignment Set (Test HP Sourcing)
- 34. Manage Administrator Profile Values
 - Profile: MSP_DEFAULT_ASSIGNMENT_SET
 - MSP_ENABLE_GOP_WITH_NEW_ARCH
 - MSG_GOP_HORIZON_DAYS
- 35. Manage Transit Times (Inv - Customer)
- 36. Manage Planning Profile Options
 - Profile: MSC_DEFAULT_CAPACITY_CALENDAR

Programs:

- 1. Collect Planning data
- 2. Refresh and start the order promising server
- 3. Refresh Order Promising
- 4. Purge Data Repository

Receivable Setup:

- Accounts Receivables Specialist
- Accounts Receivables Manager
- Billing Manager
- Billing Specialist
- Revenue Analyst
- 1. Manage Receivables System Options
- 2. Manage Receivables Payment Terms
- 3. Manage Auto Accounting Rules
- 4. Manage Transaction Types (Invoice, Credit Memo)
- 5. Manage Transaction Sources (Manual, Imported)
- 6. Manage Standard Memo Lines
- 7. Manage Receivables Activities
- 8. Manage Receipt Classes and Methods
- 9. Manage Receipt Sources
- 10. Open Receivable Periods
- 11. Manage Remit to Addresses

OM Topics:

- 1. O2C / Standard Sales Order
- 2. Partial Shipment
- 3. B2B
- 4. Transfer Order
- 5. Ship Only
- 6. RMA
- 7. Bill Only
- 8. DropShip
- 9. Holds
- 10. Approval
- 11. Manage Pretransformation Rules for Sales Orders
- 12. Orchestration (Duplicate & New)

Oracle Fusion SCM Course Content

13. Copy order
14. Cancel Order and Cancel line
15. Update Order / Revision

OM Scenarios:

1. Create and Submit Sales Order single Line
2. Create and Submit Sales order Multiple Orders
3. Create and Review Sales Report
4. Submit order and review Orchestration steps
5. Pick Wave and Pick slip Order
6. Ship Confirm order
7. Pick the order from Manage Shipment Line
8. Cancel The order
9. Cancel the single Line
10. Delete the order line
11. Update the order
12. Create Bill Only order
13. Create Ship Only Order
14. Create RMA order
15. Create an Order and Perform Partial Shipment
16. Update Schedule Ship dates
17. Apply and Remove Holds
18. Perform B2B Order
19. Perform Dropship Order
20. Perform Transfer Order

Real-Time Discussion:
